In this age of telecommuting and branch offices, Rocky Mountain Health Plans (RMHP) understands your need to offer all your employees — including those who live out-of-state — access to quality health care. To help you recruit and keep the best employees, no matter where they live, and to cover all your employees under the same group PPO plan, RMHP is pleased to provide that freedom and access.

RMHP offers this access through the MultiPlan/PHCS network, one of the largest national networks available.

Your out-of-state employees and their families can access in-network benefits from a MultiPlan or PHCS network physician, hospital, or other health care professional.
