“Rocky Mountain benefits everyone – the physician, the patient, and the community.”

Michael Brezinsky, MD
Internal Medicine — Montrose, CO

I have worked with Rocky Mountain Health Plans ever since I came to Montrose 10 years ago. They are easier to work with than other insurance companies. They are very quick to pay for services and patients seem to be happy with them.

One of the key areas that Medicare patients especially appreciate is the prescription benefits. Specifically, they allow for a broad range of prescriptions and don't put a lot of restrictions on which drugs I can prescribe.

Another area that is extremely important for the physician and patient is preventive care. I think it is great that they work to encourage physicians to promote preventive medicine. This encourages physicians and patients alike to be proactive in their health care.

I know that many of my patients comment on the Rocky Mountain Health Plans service. They know that Rocky Mountain is a trusted and honest provider that makes access to health care easier.

Rocky Mountain Health Plans is a not-for-profit, Colorado-based health plan with a Medicare contract and a Medicare approved Part D sponsor.
