“When it comes to the Rocky Mountain Health Plans Medicare coverage versus other Medicare options there is really no comparison.”

*Gary Knaus, MD
Family Medicine — Carbondale, CO*

Here’s why. With the Rocky Mountain Medicare plan, if a patient goes to the hospital for surgery, upon their release, they get a single bill that they pay that covers the hospital stay, the doctor’s fee, the anesthesiologist, and the rest of the miscellaneous expenses that there are with any surgery. The patient knows to pay the bottom line amount provided by Rocky Mountain Health Plans. On the other hand, with other Medicare options the patient gets separate bills from the hospital, from the doctor, from the anesthesiologist, etc. Then they get statements from the insurance company explaining what they will cover. The patient often gets confused and doesn’t know what to pay or not pay.

In all honesty, Rocky Mountain Health Plans truly cares about the patient and makes it easier for me to provide better care as a physician. It’s a well-run organization. And they work to always do the right thing.

Rocky Mountain Health Plans is a not-for-profit, Colorado-based health plan with a Medicare contract and a Medicare approved Part D sponsor.
