“Working with Rocky Mountain Health Plans has been a very positive experience for me.”

*Albert Krueger, MD
Family Medicine — Meeker, CO*

What impresses me most is their proactive partnership approach to preventive medicine, assistance in managing and monitoring chronic patient care, and their willingness to listen to the needs of Doctors in providing quality care to every patient.

What I appreciate about Rocky Mountain Health Plans is that they are very accessible on a regional and local level. This makes it very easy for me to have a relationship with them and go to them for assistance and also provide input or advice on systems from my viewpoint.

I feel like I have a partner with Rocky Mountain, in taking care of my patients. They are instrumental in working to change the way we take care of patients. A more specific example is how we care for diabetic patients. Rocky Mountain wanted to make the care process easier for doctors to ensure that patients with diabetes are getting the treatment they need. By creating a better process via a computer-based registry system, we have been able to increase our quality of care to diabetic patients by 100 percent.

What makes Rocky Mountain a unique health plan provider is that they are more than just lip service. We have a true partner in Rocky Mountain Health Plans.

Rocky Mountain Health Plans is a not-for-profit, Colorado-based health plan with a Medicare contract and a Medicare approved Part D sponsor.
