**“I always recommend Rocky Mountain Health Plans
when patients ask me about health plans.
It’s my #1 recommendation.”**

*Gregory Reicks, DO
Family Medicine — Grand Junction, CO*

The people at Rocky Mountain are highly customer oriented. They really try to help patients work through difficulties in sorting out details about Medicare or any other plan. Their service seems to be much more comprehensive and supportive than other health plan providers.

I tell my patients that Rocky Mountain has very comprehensive benefits and they’re easy for patients to deal with and understand. Another big benefit for patients is Rocky Mountain’s large physician network. This helps patients with easy access to physician care. They don’t have to wonder whether their primary physician or any consultant referrals will be covered or not.

And patients tell me things about Rocky Mountain Health Plans. They say they’re able to get questions answered in a timely fashion. And they often mention that they get a real person when they call, instead of a recording. They like that and so do physicians.

Rocky Mountain Health Plans is a not-for-profit, Colorado-based health plan with a Medicare contract and a Medicare approved Part D sponsor.
