**“There were a few big reasons I switched from another plan to Rocky Mountain. Now I can pick up the phone and call someone for help right away.”**

*Leah Rae Hunter — Standard Plan (Cost)  
Member since May 2006*

If I have a glitch with anything, they'll help me. A while ago I had a problem with my prescriptions. I picked up the phone, called Chris [an employee] and said “I need help” — and he helped me. With the other plan, I never could have gotten help that fast.

I wasn't going to switch from the other plan, though. I'm not a switcher. Before I went with Rocky Mountain, Chris was so helpful. He hung in there with me. Medicare can be so difficult to understand. He explained everything and sent me information. We talked for months. I realized that Rocky Mountain was really the best way to go. Chris made me comfortable. And I believed that he would take care of me. That made a big difference.

Cost was another issue. One of my prescriptions isn't available in generic and I save a tremendous amount by going with Rocky Mountain. I had a knee surgery recently and an MRI. Both were covered with no problem. I didn't have to worry.

There's service after the sale! You don't find that very often.
