

Broker Briefing

Annual Review Process Changing

In November, we told you about the Health Insurance Reporting Requirements published by the Centers for Medicare & Medicaid Services (CMS). Rocky Mountain Health Plans (RMHP) is required to report to CMS for Medicare Secondary Payer determination.

Starting with July renewals, RMHP will include a verification request of group-specific information in each renewal notice in order to annually update the group's information.

The employer's Tax ID number, Standard Industry Classification (SIC) code, and number of full and part time employees will be displayed with the request for the employer to validate the accuracy of our records. If any of the information is missing or incorrect, we will ask the employer to complete the form and return it to RMHP so that we can update our systems for reporting purposes.

This new process will replace the Annual Underwriting Review Questionnaire that has been sent to your clients in the past. (Business Groups of One will continue to receive the Annual Underwriting Review Questionnaire.)

RMHP Underwriting criteria remains the same, as far as participation requirements, employer contributions, etc. Your continued work with your clients is appreciated to ensure they continue to qualify for group coverage. RMHP reserves the right to request tax and wage documentation for any small group.

Updated Forms

In our continued effort to maintain accurate, compliant enrollment materials, RMHP has updated the majority of the enrollment forms on our website. Please be sure to download new enrollment documents for enrollment and application activity going forward.

New Group Service Agreements

RMHP has introduced new provisions to the Group Service Agreement (GSA) to address our obligations surrounding CMS reporting for primary and secondary payer status, CoverColorado assessments, and clarifications to existing COBRA /CCOC provisions. RMHP will be mailing these Amendments to employer groups this week.
