New Rocky Mountain Vista Plans Available for July New and Renewing Business

Rocky Mountain Vista Plans include three new plan designs which provide richer office visit coverage, along with 100 percent coverage for preventive care not subject to deductible, a standard benefit you have come to expect from Rocky Mountain Health Plans. Our Vista Plans also include the employee-choice option for prescription drug coverage. This benefit allows employers to offer one plan and give employees the choice to select generic-only or brand-name drug coverage, which ever meets their personal needs and budget.

With the addition of the Rocky Mountain Vista Plans, we now offer more choice in employer-sponsored health care. Your clients can offer dual and triple plan options by providing a choice between the Rocky Mountain Vista Plans and Good Health Plans.
