U.S. Senator Michael Bennet Visits Rocky Mountain Health Plans

United States Senator Michael Bennet visited Rocky Mountain Health Plans last Friday to hold a roundtable discussion with Colorado health care leaders and to announce a new bill that is based on the Rocky Mountain Health Plans model of care.

The bill, S.1009, will ensure that the nation's senior citizens receive effective follow-up care after they leave the hospital. Bennet said, "Colorado's leading health care systems such as Rocky Mountain Health Plans are at the forefront of delivering efficient health care and working to improve patient care. This legislation would bring the Rocky Mountain Health Plans model to the nation and ensure better patient care for our seniors and their families."

RMHP leads the nation with a three percent hospital readmission rate, compared to the national average of 17.6 percent. RMHP delivers this same model of care to our Members, whether they are enrolled in an Employer Group plan or an Individual plan. This is just one more reason to present and recommend Rocky Mountain Health Plans to your clients.
