Rocky Mountain Health Plans Announces 2010 Medicare Premiums

Competitive New \$0 Premium Medical Plan Introduced

(DENVER, Colo.) - Today, not-for-profit Rocky Mountain Health Plans is introducing a new Medicare **Zero Premium** Medical Plan along the Front Range and across the state which includes a free annual physical, free Medicare covered preventive care, and low office visit copayments to see primary care doctors and specialists.

The new **Green Plan** also offers a worldwide travel benefit and a low \$500 deductible on all other Medicare-approved services that are received from Rocky Mountain Health Plans providers. Members who want to add Part D prescription drug coverage to the Green Plan will pay just \$31.60 per month.

“We know that today’s seniors want choices, affordability, and stability,” says Steve ErkenBrack, president and CEO, Rocky Mountain Health Plans. “That’s why we are excited to offer our new Green Plan in addition to our three most popular health plans. We want to give our Members a broad spectrum of coverage and premium options. And with Rocky Mountain Health Plans, they also get peace of mind by knowing they are with an organization that has a 35-year history of service to Medicare beneficiaries in Colorado.” Throughout the state Rocky Mountain is also offering its Members a choice of four plan designs, including the new Green Plan.

Other 2010 plan offerings on the Front Range from Rocky Mountain Health Plans include the **Thrifty Plan** with a combined medical and prescription drug coverage premium of \$67.70 per month; the **Standard Plan** with a combined premium of \$92.90 per month; and the **Gold Plan** with a combined premium of \$242.80 per month.

“At a time when the economy is pressuring consumers’ budgets, Rocky Mountain Health Plans is introducing a zero premium plan and announcing stable 2010 premiums with increases of only two percent on other plans,” says ErkenBrack. “We’re pleased to be able to do this for our Members.”

Moreover, the cuts that Congress is considering in its health care reform legislation do not affect the Rocky Mountain Health Plans Medicare plans. Plans affected are Medicare Advantage plans. Rocky Mountain Health Plans provides Medicare plans under a Cost Contract.

The Rocky Medicare plans continue to provide excellent value for the dollar compared to other Medicare offerings, such as:

- No referrals needed for specialist care
- Free preventive care such as an annual physical, vaccinations, and screenings
- Extras such as an enhanced dental option, vision and hearing discount plans and discounted complementary care, including visits to chiropractors, acupuncturists, massage therapists, dieticians, and some fitness programs.
