Dear Zach,

Electronic Renewal Packets for Brokers

Rocky Mountain Health Plans (RMHP) is excited to announce that we will begin sending you electronic renewals instead of paper renewal packets for your groups. Many of our brokers have asked for an electronic renewal, and we are pleased to be able to bring that to you this year.

We believe this change will provide you with convenient access to the renewal information, allowing you to serve your group more quickly and efficiently.

For now, we will continue to send paper renewals as we work to implement the new electronic version. Our goal is to move to electronic renewals only by the end of 2020. You will begin receiving electronic renewals beginning with your October groups.

If you have any questions or concerns about this process, please reach out to our Group Management Team at Group_Management_Team@rmhp.org or 800-453-2981, option 1.

GF Discontinuation

After careful consideration, Rocky Mountain Health Plans (RMHP) has decided to discontinue our Grandfathered plans in the group market beginning in October, 2020. As a broker who may be serving groups that remain on one of these plans, we want to help you understand the changes and give you the information you need to advise your group(s) through this transition.

We know these plans have been popular with those groups who have chosen to keep them, and we appreciate the long history those groups have with RMHP. As a separate block of business aside from the ACA plans, our Grandfathered plans must maintain a level of enrollment to remain creditable on their own. As groups have moved away from these plans, we are no longer at that level. We also

believe that the ACA (non-Grandfathered) plans we have available have similar benefits, and in many ways represent improved coverage for the groups we serve.

The discontinuation will begin with groups renewing in October. [A letter](#) will be sent explaining the changes and advising groups of their options and the need to take action to maintain health coverage on their renewal date. They will receive alternate options from RMHP in their letter.

If you have questions about the discontinuation, or the new options presented to your client, please let us know. You can reach our Group Management Team at Group_Management_Team@rmhp.org or at 800-453-2981, option 1.

Thank you, as always, for your continued partnership!
