

2019 PART B COVERED ITEMS THAT CAN BE OBTAINED THROUGH PHARMACY

These Part B-covered drugs and supplies are selected by Rocky Mountain Health Plans (RMHP) in consultation with a team of health care providers. This represents the prescription therapies believed to be a necessary part of a quality treatment program.

These are the medications and medical supplies that are covered under Medicare Part B benefits at RMHP. Some of the medications may not be covered under Medicare Part B in all situations, depending upon the condition being treated. The Centers for Medicaid and Medicare Services (CMS) requires that some of these medications are covered under Medicare Part B only for certain medical conditions. Please contact RMHP Customer Service if you are unsure if your medication will be covered under Medicare Part B.

RMHP will generally cover the drugs identified as long as the drug is medically necessary for a Part B-covered condition, the prescription is filled at a network pharmacy, and other plan rules are followed. For more information on how to fill your prescriptions, please review your Evidence of Coverage.

RMHP is a Medicare-approved Cost plan. Enrollment in RMHP depends on contract renewal.

		2019 Part B Covered Items That Can Be Obtained Through Pharmacy			
Class	SubClass	Drug Name	B/G	Tier	Restrictions
Alternative Medicines					
Alternative Medicines	Alternative Medicine	Neoke Ra Lipaic	B	\$0 Copay	PA
